Description

Flame retardant, anti-static coverall designed for protection in manufacturing and infrastructure industries. Made from a durable blend of 60% Modacrylic and 40% Cotton with inherent anti-static properties, this coverall offers splatter, heat, flame, electric arc, and electrostatic protection while providing practical features for comfort and ease of movement.

Features

- Flame retardant and anti-static for enhanced safety.
- Protection against splashes, heat, flame, electric arc, and electrostatic hazards.
- 1 back flap pocket and 2 front breast flap pockets (Velcro) for convenient storage.
- Press stud adjustable cuffs and boots hem line for a secure and customizable fit.
- Inherent flame retardant fabric for long-lasting protection.
- Comes with two reflective bands for added visibility.
- Available in regular and tall leg options.
- Branding options available (heat seal and embroidery).

Standards

- ATPV = 17 cal/cm², ELIM = 14 cal/cm²
- EN ISO 11611:2015
