

#### Manufacturer's Instructions and InformationSample

Description: 13G UHMWPE/polyester(Recycled post-consumer)/spandex liner with PU

coating

Product Style/Order No: JFG515-07, JFG515-08, JFG515-09, JFG515-10, JFG515-11

Product code/colour: Black

## Risks against which the PPE is intended to protect:

The gloves are employed and intended to protective against mechanical risks of abrasion, TDM cut, tear, puncture of palm in working environment.

The gloves meet the requirement for resistance to puncture, may not be suitable for protection against sharply pointed objects such as hypodermic needles.

The gloves are not to be used for chemical protection, naked flame, electrical protection or use where a risk of entanglement by moving parts.

The composition of gloves do not contain substances which are known to cause allergies

| Risk     | Standard Clause                | Assessment method                   |
|----------|--------------------------------|-------------------------------------|
| Abrasion | EN 388:2016+A1:2018 Clause 6.1 | Abrasion resistance numbers of rubs |
| Cut      | EN 388:2016+A1:2018 Clause 6.3 | Cut resistance strength             |
| Tear     | EN 388:2016+A1:2018 Clause 6.4 | Tear resistance strength            |
| Puncture | EN 388:2016+A1:2018 Clause 6.5 | Puncture resistance strength        |

This product has been labelled with a CE mark in conformity with the provisions of Module B of the Regulation (EU) 2016/425 Personal Protective Equipment

## Pictograms and Performance Levels of certified gloves:

| EN 388: 2016+A1:2018   | Performance               | Performance levels |  |  |
|--|---------------------------|--------------------|--|--|
|  | Abrasion resistance       | Level 4            |  |  |
| ( <u>=</u> )   | Blade cut level           | X                  |  |  |
|  | Cut resistance (EN 13997) | Level D            |  |  |
| 4X42D  | Tear resistance level     | Level 4            |  |  |
|  | Puncture resistance       | Level 2            |  |  |
|  | Impact protection         | Blank              |  |  |
| X: indicates that the glove has not been submitted to the test or the testmethod appears not to be suitable for the glove design or material |                           |                    |  |  |

## Interpretation of the levels of performance (according to EN 388:2016+A1:2018)

| Test                                     |          | Lev | el 1     | Le | vel 2     | L  | evel 3     | Level 4    | Level 5    |
|--|----------|-----|----------|----|-----------|----|------------|------------|------------|
| 6.1 Abrasion resistance (number of rubs) |          | 10  | 00       | 5  | 500       |    | 000        | 8 000      | -          |
| 6.4 Tear resistance (N)                  |          | 1   | .0       | 25 |           | 50 | 75         | -          |            |
| 6.5 Puncture resistance (N)              |          | 2   | 0        |    | 60        |    | 100        | 150        | -          |
|  | Lev<br>A |     | Lev<br>B |    | Leve<br>C | el | Level<br>D | Level<br>E | Level<br>F |

**<u>Storage:</u>** Always store in clean, dry conditions. Do NOT store in places subject to direct, strong sunlight.

## **Available Sizes & Selection:**

Fit according to hand size Allowance built in for comfort. Check the fit before using in working conditions

Unit: mm

| Glove size | Hand length | Hand circumference |
|------------|-------------|--------------------|
| 7/S        | 168         | 178                |
| 8/M        | 175         | 184                |
| 9/L        | 182         | 194                |
| 10/XL      | 188         | 206                |
| 11/XXL     | 195         | 216                |

## **Limitations of Use:**

Safety required only if the right size of the gloves is used and applied. Please check any damage before using. The special features may be restricted or even lost if it is excessive dirty and damaged, please replace it with a new glove.

# Warning:

The gloves are not to be used for chemical protection, naked flame, electrical protection or use where a risk of entanglement by moving parts. The gloves meet the requirement for resistance to puncture, may not be suitable for protection against sharply pointed objects such as hypodermic needles. The gloves cannot be washed.

**Disposal:** Follow local disposal rule

Aftercare: The glove is not washable.
