

Q-Fence and MultiFit Base

CU-FC17 - Orange Reflective Q-Fence

CU-FB02 - MultiFit Base - Yellow Ends

Cusack

The Q-Fence provides an alternative solution to traditional metal fencing. At 2m in height, the long-lasting, non-conductive panel can be easily installed by one person and is safe to handle with no sharp edges. No mesh that could separate reduces potential injuries to the workforce or general public. Complete with Chapter 8 conforming reflective panel and pre-manufactured fixing holes to attach permit/courtesy signs when required.
